Experience

MakerInMe Technologies Pvt Ltd Bangalore
Product Development Intern Dec 2025 – Present

- Developed AI agent prototypes using **LangChain** and **LangGraph** frameworks to automate multi-step workflows.
- Deployed and self-hosted **N8N** workflow automation tool using **Docker**, enabling no-code pipeline integration.
- Applied **Model Context Protocol (MCP)** concepts to connect AI agents with external tools and data sources.

I Garuda Secure Cyber Solutions Remote
Cybersecurity Intern May 2025 – Jun 2025

- The principles of data protection, network security and secure software design were learned and applied.
- Acquired knowledge of best practices of cybersecurity observed in IT organizations and product companies.
- Cybersecurity practices are combined with machine learning methods to apply KNN-based malware pattern detection model.

Projects

Automated Document Processing System [N8N, Google Drive, Google Sheets, Mistral AI, Docker]

- Built an automated workflow using N8N to classify documents and extract text via OCR, reducing manual data entry errors.
- Integrated Mistral AI for intelligent document understanding and response generation.
- Connected Google Drive and Sheets for seamless document storage, retrieval, and structured data.

Employee Burnout Analysis [Python, Pandas, Scikit-learn]

- Preprocessed and analyzed employee datasets to identify key burnout risk factors using machine learning.
- Built a classification model using Scikit-learn to predict burnout likelihood based on work pattern features.

Technical Skills

Programming Languages: Python, JavaScript, HTML5, CSS3
Programming Concepts: Data Structures & Algorithms, OOPs, REST APIs, SDLC
Frameworks: Pandas, NumPy, Scikit-learn, LangChain, LangGraph
Tools and Platforms: N8N, Docker, Google Colab, GitHub, VS Code, Google Cloud Platform
Soft Skills: Communication, Analytical, Detail Oriented, Collaborative, Adaptive

Education

Vignan's Institute of Engineering for Women Oct 2022 – Mar 2026
Bachelor of Technology – Information Technology CGPA: 7.66

Achievements

- **2nd Prize** — YI Innovation Challenge
- **Best Performer** — Employability Skills Training, Naandi Foundation
- **Student Coordinator** — Appscape Designathon, TECHRITZ
